

THE SAFETY-DRIVEN TELEMATICS SOLUTION

Encova Insurance has partnered with Azuga to provide a discounted telematics system that, when combined with our 360° approach, can assist with reducing incidents and improving your operational ROI - plus, it's driver friendly! Azuga is an end-to-end fleet management solution, and insurance carriers have observed a 19% to 30% reduction in accidents through the Azuga program.

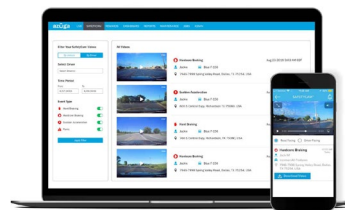

1. Get visibility into unsafe driving activity.

Improve safety through alerts and quickly investigate risky driving evidence to prevent accidents.

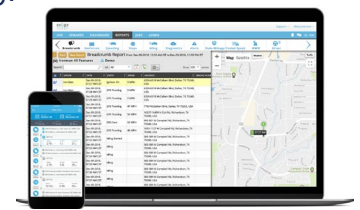

2. Identify and coach high-risk drivers.

Identify at-risk drivers and personalize training and rewards based on individual driving behavior data.

3. Access a comprehensive fleet telematics solution.

Combine video with GPS fleet telematics in an easy-to-use interface. Save money while knowing what your drivers are doing.

FEATURES AND CAPABILITIES

Fleet operations

Everything a fleet manager needs to efficiently run their business.

- Real-time logistics and operation management
- Fleet performance dashboard
- Fuel usage and management
